Expanded in Odessa/Midland, TX

Expanded in Chandler, AZ

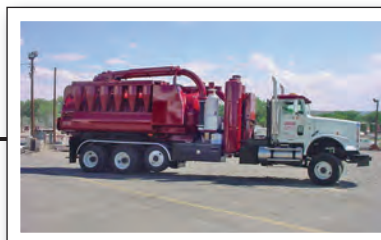

By early 2013, we will have 33 Industrial Vacuum Trucks in our fleet along with 31 Hydro-X Units to service the Four Corners and surrounding areas.

Opened a \$1 million dollar training facility because we are 100% committed to safety.

Expanded to Lubbock, TX.

Purchased our first Hydro-X truck.

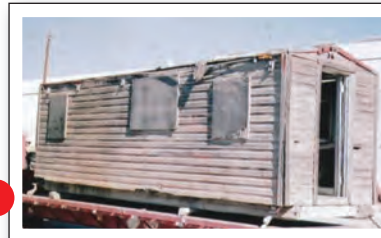

Expanded to Show Low, AZ.

Purchased the land and building on San Juan Blvd. Where we reside today.

Sonny began designing and building hydroblast units from the ground up

Started providing fiberglass repairs on piping and tanks

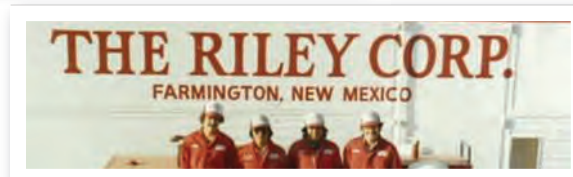

The first vacuum truck was purchased, which is still in operation today.

Sonny Riley founded what at the time was Riley Corp. The Doghouse was located on Animas Street. Sonny worked out of it with no electricity, no water and did his paper work with a flashlight for one whole year until he built the building on Animas Street to replace the Doghouse.

The name was changed to Riley Industrial Services, Inc. We then expanded into the uranium industry, oil and gas industry as well as some power generating stations.

Services were sandblasting only.

Serving the Southwest and Rockies for 42 years
